Boundary County Watchman
Sandpoint Human Rights Task Force speech
November 14, 2023

Last year I and many Boundary County residents worked towards moving sexually explicit books from the children's section to the adult section of our library. I will save the timeline of events for later, should you request it.

Last year the Human Rights Task Force members wrote a six-page article comparing us to the Taliban (see attached). We also captured public records of the Human Rights Task Force's emails showing they were working with CNN to create a video portraying us as Aryan Nation with their hand in the air like they do for Hitler. Then they added footage of Ruby Ridge to the CNN video. This CNN video was full of lies and attempts to tie our recall group (4 people) to extremist, churches we don't attend and books that we don't care about. We never mentioned that we were against LGBTQ... our statements were always about sexually explicit materials (www.boundarylibrary.org).

Members of the Human Rights Task Force were directly involved in labeling concerned citizens as White Supremist, Christian Fundamentalist, Nazis, Taliban and many more extreme labels. They also spread rumors that we were coming to the meetings with guns and yelling. I recorded all the meetings and none of this happened.

It appears that your three agencies are in a relationship with an organization that is not bound by laws and ethics so they can create a list of who they want to deem as extremist. All while the Human Rights Task Force members are enacting and enabling extremist ideology themselves. I remember reading in my history books about the Nazis using citizens to label their neighbors. Millions of people died because of this.

My question for the FBI, DOJ and Idaho U.S. Attorney is:

- How are your government agencies able to maintain a professional image and show integrity while working with organizations like the Human Rights Task Force who are free to act and do as they want?
- The Human Rights Task Force is made up of citizens like me with no authorization or professional certifications/training on how to create a "Hate Report/Hate List". Is the FBI, DOJ and U.S. Attorney using Human Rights Task Force opinions for data collecting or Fusion Center data?
